

**TCHS CTAE**  
**Advisory Committee Meeting Notes**  
**February 19, 2014**

**Current Objectives**

Meeting was opened and a discussion about how to fulfill our proposed outcomes for the year ensued.

In an effort to accomplish our goals for the 2013-2014 school year, several industry partners agreed to serve and/or provide guest speakers to speak with students about their respective careers to give them an overall idea of what can be expected of them in the various positions. Some also agree to provide invaluable information to assist them in creating resumes, personal appearances and improving upon their interviewing skills.

In order to address students' interests, a survey will be provided to students to get a general idea of the careers most students are interested in. Dr. Mayweather and Mrs. Brown agreed to work on the survey that will be used to garner interest. The findings will be used to schedule guest speakers along with those scheduled to present based upon the units covered for the remaining of the year. Partners in the areas of Personal Finance and Risk Management were present and agreed to visit students within the coming weeks.

**Career Expo**

The Career Expo for the 2014-15 school year was brought up and it was decided that we would focus on the goals for the current school year before focusing upon those set for next year.

**Next Meeting**

It was agreed upon that one final meeting would take place to discuss the effectiveness of our efforts for the current year and to briefly discuss plans for the next school year. Date: TBA.
