

Career Activity: Research Templates

Research your number one and number two career choices. Conduct research about the careers and complete templates covering the following information:

Career Name

Background information about selected careers

Career Salary

Number of years of school necessary for selected careers

What school would you attend to be able to achieve selected careers?

Plus any additional information you find about the careers. Once research is finished, complete the assigned templates if you still want to pursue the selected careers after new found researched information.
